

THE CENTER FOR SELF ADVOCACY
PRESENTS

LET'S CONNECT!

VIRTUAL EDUCATION

LET'S TALK ABOUT TECHNOLOGY

Technology runs through every part of our lives. The Center for Self Advocacy recently launched a new service to help individuals strengthen the skills they need to access online resources and not feel left behind.

Let's Connect! will help you learn what YOU want to learn about computers and using the internet - nothing more, nothing less.

We are holding small group sessions focused on a particular skill combined with individual mentoring sessions where our "digital guide" will work beside you as you learn to use a new app or perform a new skill.

CONNECTING = EMPOWERED ADVOCACY!

***We encourage people with developmental disabilities, intellectual or learning disabilities, parents, youth, and underserved community members to register.

**CALL TO SET UP AN APPOINTMENT TO
REVIEW YOUR NEEDS & GET STARTED!**
